***Statement of Reasons for Allowance***

1. Claims 1-8, 10-13, and 16-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: an Appeals Conference was held in this case. The decision of the Appeals Conferees was that in view of Applicants' assertion in the appeals brief that the form of Applicants' four different crystals differs from all those taught in the prior art, the anticipation rejections made in points #7-#11 must be withdrawn.
3. In view of the decisions of *In re Zurko* 59 USPQ2d 1693 and *In re Lee* 61 USPQ2d 1430, any obviousness rejections over the prior art would not be sustainable.
4. The rejections to claim 12 under USC 112, first paragraph, and second paragraph are withdrawn. Applicants' argument that the passage "crystallization is effected from suspension" conveys more accurately Applicants' invention and is understandable to the skilled process chemist is persuasive. Thus, the indefiniteness and enablement rejections made in points #4 and #6 of the Final rejection are withdrawn. Applicants' argument that the skilled chemist would understand that "from the resultant heated solution" refers to the solution prepared by thermal treatment of the N5-methyltetrahydrofolate salt in a polar liquid is persuasive. Thus, the indefiniteness rejection made in point #5 is withdrawn.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance." Please direct any inquiry concerning the status of this application or of the location of any papers to the Customer Service Office, whose telephone number is (703) 308-0197.
